Technology

From Simpluris' inception, our founders had a vision to develop a single comprehensive platform, purpose-built to serve the legal administration industry. Today, our proprietary technology platform, named Cadence, increases data security, mitigates errors caused by siloed databases, and speeds processes by improving transparency and collaboration between departments. Cadence is an innovative and evolving administration engine that sets our case management apart from all other legal administrators. From data ingestion, noticing, and claims processing, through disbursement, taxation, and final reporting, our project management processes are conducted inside Cadence. We see the future of legal tech evolving and are continuously developing our solutions to meet the administration needs of tomorrow.
